Contact us. Android is a trademark of Google Inc. © 2014-2017 is a dictionary a special book with which you can discover new words and understand the meaning of the words you have come across recently. The book can have a large number of words and their definitions. The problem with the traditional dictionary is that the user should spend some time locating the word. If a dictionary has 100s of pages, identifying the meaning of the word will be a frustrating experience for the user. The best and fastest way to find synonymous words is to use a good dictionary app on mobile device. Applications use fast search algorithms to get the meaning of words from the database table. They are lightweight and free. Below, we have shared the best Android dictionary applications that you can use on a phone or tablet. Oxford Dictionary retails for \$2 in offline bookstores. If you don't want to spend money or waste time looking at words, download the free version of the Oxford Dictionary app from the Google Play Store. Oxford is a popular dictionary app. It's easy to use. When you run the Oxford Dictionary on your Android device, you'll see a big popup box that displays details on the premium version of the Oxford app. To turn off the popup, tap the back button of your mobile phone. The main interface of this application includes a search box where you need to enter the word. At the bottom of the box, the app displays a list of words. The list is with a vertical scroll bar and contains 300K words. When you enter a letter in the box, the app will display the words starting with the entered letter. The Oxford Dictionary supports voice input. It makes users aware of the words they've discovered recently. It has a word of convenience of the day that displays new random words and its definition every day. The size of the Oxford Dictionary app is 15 megabytes. Dictionary.com is one of the most popular dictionary apps for Android. It gives users access to 2+ million words and their meaning. Like other Android dictionary apps mentioned in this list, this application provides a search utility. Below the search box, you will find a toggle button to filter the search results. The app has a list of the most searched words. It has a translator tool through which you can translate words into 30 languages. A word pronunciation in it also included. The app shares suggestions on improving writing skills and vocabulary. Dictionary.com Dictionary.com A voice search function. It lets users go through the official Dictionary.com blog where English language experts share their suggestions on improving grammar, vocabulary, etc. Check: GameXKing, the best free word for your developers, mw is the most respected dictionary app in the United States. The app includes quiz tests that help users create vocabulary and learn new words. MW Dictionary can pronounce words for you. It has quick definitions utility that display definitions of words on the fly. The application keeps a list of words you've searched for recently. It has a favorites section where you'll find a list of words you're looking for often. The free Merriam-Webster Dictionary app for Android provides examples of how words are used in sentences. If you are searching for offline dictionary app for your Android device, download and install OED. This app has a simple interface. Since it doesn't require internet connectivity to work, OED is an ad-free application. Like other dictionary apps we covered here, OED keeps a list of recently discovered words. OEF ship with a settings interface where you will find options to change the following aspects of the app: text font size, UI color, Page orientation, line spacing, settings interface allows users to turn voice on/off on the text feature. This enables you to define a shake action. Hindi is a widely spoken language. If you are travelling to India, install this dictionary app to understand the language spoken by the locals. The Free Hinkhoj app supports Hindi type words. The great thing about this app is that it understands Hindi words typed in English. It also makes you aware of the meaning of the word. In addition to providing definitions, the app suggests words that look similar to the words entered. The app also shares its inverse. Hinkhoj helps users improve their vocabulary. It has three games that will help you discover new words. Hinkhoj ships with a word pronunciation tool. It provides a spelling checker utility. It includes an inbuilt OCR tool that recognizes the words printed on the images.
